MAGEE THE MURDERER.

STORY OF A CHECKERED CAREER.

Close of a Stormy Life With Wholesale Murder and Sulcide-The Man Who Killed Family and Himself.

KANSAS CITY, Mo., Nov. 12.-In the case of Captain Henry Ciay Magee, who mur-dered his his daughter and wife, and then killed himself in this county, a verdlet of murder and suiende was recorded by the Coroner's Jury, and the bodies of the vic-

tims were buried at Westport.

Magee was formerly wealthy, but has been in moderate circumstances since he removed to this county. His estate is worth perhaps \$10,000. Mrs Magee was a Miss Skinner and is said to have descended from a very highly respectable family of that name in Harrison county, Ky. She and Magee were married thirty-three years ago. Magee was fifty-five years old at the time of his death and he had been a resident of Jackson county for about five years. Near Cynthiana, Ky., where he formerly resided, he had a fine home and a large farm just adjoining the town. His resldence stood on an eminence overlooking the town, and it was upon his farm that the famous Abdallah race course was situated. His business was dealing in fine horses. He was very successful in that line, and at the time of his death he was the owner of several good horses then upon the farm. At one thine, in Kentucky, he owned a famous trotter, Jennie Strideaway, and for this animal he once refused \$17,000. Site afterward became crippled and he sold her for \$1,700. When he lived in Kentucky and was in the horse-business he went every summer to Saratogu, Long Branch, Coney Island and other resorts, and left his family nt home. At these places he would spend three or four months, but he always gave his family permission to purchase whatever they desired at the stores, and he settled promptly-upon his return. In the days when he was in fine circumstances he placed no restrictions on his family expenditures, but when his means became more eircumscribed he insisted on economy. One reason why he left Kentucky was on account of a serious complication in which he became involved. During a political fight Magee shot at his adversary but killed the wrong man. For this he was tried, and after strong efforts regained his liberty, with judicini approval. After his acquittal he disposed of his proportion erty, and coulng to Missouri purchased n portion of the Pluukett farm, and the truet he got consisted of 100 acres. When in Cyathiana he used to mount his horse and ride to town every day, remaining there till the afternoon, talking In the stores and on the street corners. When in Jackson county he did the same thing in Independence. He is said to have been an aimost Incessaut

come of Cornell University. ITHACA, Nov. 19-The proceedings in the Fisko wiii case were resumed with Treasurer Williams on the witness stand. He testified substantinily as follows: The number of acres of Western land remaining on hand and unsold on September 30, 1881 (the date number of neres unsold on November 1, 1883, was 165,892. A contract for a large saie (30,998 acres) was executed in Septembet, 1881, to Knapp, Stout & Co. for \$477, The University received no further offer for land about that time to witness's personal knowledge. The next large sale was made to the Chippens Logging Com-pany on August 1, 1882, realizing \$1,841,746.

which includes the sum in the Comptroiler's hands The financial statement of the university on August 1, 1881, being a portion of the Treasurer's report to the University Regents, published in 1882 and found on page 141, was here introduced and received as

the average price being \$16.84 per acre. The amount invested in funds, as stated in

the Regents' report in 1881, was \$980, 183, 47,

On the sum of \$123,807.66 mentioned yesterdny as income from invested securities, the sum of 67,235 was not in reality from the income, but charged to the Western lands. The income of \$123,807.66 would indicate a principal of \$2,000,000. The explanation of this is that the university at that time was in need of an income, and \$67,235 was taken from the actual proceeds of the Western lands and treated as income. The correct sum really received from invested funds was \$50,000, which sum also includes the annual interest on \$145,000 which was taken from the founder's fund, leaving the sum of \$17,213, which was the actual amount of the university's Income from invested funds.

THE FAT BRIDE'S BODY.

Young Moses Repenting of His Bargain With Dr. Hill to Sell It

BALTIMORE, Nov. 12,-'The surgeon with whom Mr. David Moses bargained to seil his wife's body was Dr. Alexander Hill of 43 North Calvert street. Dr. Hill says:

"On the night of the day Binnche Gray was bried I was rung up at 10:30 r. m. by a young man who said he was Moses and was the husband of the fat woman, He said he had understood that I wanted to buy her body, and if so he was prepared to sell it. ' 'I told him that I would like to have the skeleton. Moses seemed very auxious to strike n bargain at once. said he had only \$1.75 and was anx-lous to get back to New York. He offered to sell the body for \$45, asked him to call the next day. did so and then seemed more anxious than ever to make the sale. I spoke to him about the scandal the matter would occasion, but he said he didn't care about public pointon. I would not advance him any money, but we agreed that he should go back to New York, and after public interest in the matter had died out he might get a permit from the Health Department to have the remains removed, and that I would then pay him the \$45 and get possession of the body. To-dny I received a letter from Moses asking me to deny in the Baltimore papers that he had offered to sell me the remains. Here is a slip of paper which h left for me and which he said was the nd dress to which I could write to tell him when to come on to Baltimore to remove

the remains from Mt. Olivet Countery.' The address was "David Moses, New York Museum, 210 Bowery, New York,"

lie Forgives His Faithiess Wife For the Sake of Their Little Children. POTTSVILLE, Pa., Nov. 12 .- About two

months ago Mrs. Edward Hurieman, of this place eloped with Henry Wnguer, a former lover, a companion and fellow laborer of her husband, and a boarder in the family. Sile look the two younger children with her, and left three behind to be cared for by the deserted husband. The fugitives were traced to New York. They soon left that city for the West, however, and all traces of them were lost. Recently the woman was heard from at Detroit, Mich. She had been treated with shameful cruelty and was finally abandoned by Wagner. She was homeless, friendless and without mouey, and appealed to her brothers to have her brought back. One of them went West for her, but could not find her and came back alone. The broken-hearted husband expressed a willingness to take her back for the sake of their little children, but his scanty means had been reduced by loss of employment while brooding over the faithlessness of his wife, and he could not send for her. Accordingly last week another brother of the runaway woman went out, found her and returned, bringing her and her children with him. They were met at the train by the husband, who forgave the woman and welcomed her back. Wagner has gone to the Nevada silver mines.

TEMPERANCE MUSCLE.

BEATING THE PEDESTRIAN RECORD

Mr. Reeble's Great Feat to Show What Total Abstinence Will Do-Walking 1,025 Miles in 456 Hours.

LONDON, Nov. 12.-Mr. Keehla, the noted temperance advocate, has become quite a lion among the temperance and church people. He completed 'yesterday, in the city, one of the greatest feats of physical endurance on record. Its accomplishment was undertaken for the purpose of proviing to the world that the physical system of a sound man, who never uses alcohol, is capable of sustaining greater and more protracted fatigue than is the physical system of an equally sound man accustomed to its use, even in moderation. Mr. Keeble had, in most of his temperance lectures, insisted on this point, and generally challenged his opponents to undertake a test with him. Being n man of fine physique, his chailenges were not accepted. He then determined to exemplify in his own powers of endurance the virtues of temperance by a feat of endurance in walking, choosing that because he had no experi ence, either as a professional or amateur pedestrian, and regarding walking as the completest form of physical exertion. He undertook to walk 1,000 miles within 45 hours, and to average during the entire period two and one-quarter miles per hour; no person but himself believed he would ever succeed, hut he sald he would, because he meant to in the interest of religion and humanity: Yesterday he finished his thousaudth mile in the aliotted time, and ended apparently fresh, and certainly in excellent spirits and health. A dispute arose at the completion of the next to the last mile, growing out of the decimal difficulty in adjusting the time in the last mile to the total distance to be covered, and Mr. Keeble continued walking until the dispute was settled. It was referred to sporting judges, who happened to be at the time in nnother part of the city, and before the decision, which was in favor of the pedestrinn, was delivered, Mr. Keeble hud walked 456 hours and covered a total of 1,025 miles, finishing in good condition. An admirer of Mr. Keeble has offered to back him agninst any other pedestrian in the world in an attempt to walk 2,500 niles in 1,000 hours, and make two and a quarter miles in each and every hour.

The moonshiaer was taken before Commissioner Bloodgood for examination, and held for trial in bonds of \$1,000. Thus far there is no evidence that Koch sold any of his illicit manufacture, but as it disappeared in some way the supposition is that he has been regularly supplying saloons in that section.

MANY LEADEN WITNESSES.

Billy Porter to be Confronted by Invulnerable Physical Evidence.

NEW YORK, Nov. 12.—Mr. "Shang" Draper, of No. 466 Sixth avenue, was visited on Thursday afternoon by Assitant District Attorney O'Byrne, Roundsman Cross, of the Twenty-ninth precinct, and n carpenter. Colonel O'Byrne commanded the expedition, the carpenter did the hard work of the campaign, and Cross was present as a competent witness to identify any bits of ovidence against Rilly Porter, who is charged with killing Burgiar Walsh, which might be found on the promises.

To a reporter who called upon him, Coi-onel O'Bryne said that the first thing ex-numered was the easing of the door leading from the bar into the billard-room. It was very important that all the bullets fired during the affray in which Irving and Waish were killed should be found. Two bnilet-holes were found in the casing and one in the lath and plaster back of the stove. The carpenter tore away parts of the partition, and, rubbing the dust from his eyes, Colonel O'Byrne began searching among the ruins for fragments of the bat-tered lead, like Schliemann looking for an

tiquities.

After more than an hour of hard work three balls were found near the door, and the invaders charged upon the billiardroom. A curious-crowd gathered at the doors, wondering what was going on, but a stern looking policeman with a large club prevented the gratification of any morbid curlosity. In the walls of the billiard-room was found one bullet-hole. More ripping and tearing followed, and the ball was found flattened against a brick, having passed through a pice of lath. 'All" the bullets fired during the affair are now in the possession of the people, Colonol' O'llyrne says the trial will begin on Wednesslay next in the Court of Oyer and Ter-

Now, another debate is proposed. Held.

During the last session of Congress the bili known as the Japanese indemnity blii was passed. The biii had been pressed before Congress for nearly twenty years by several attorneys, whose fees were contingent upon its passage. It now appears that the Japanese Government expected that the amount of indemnity, as well as interest for about twenty years, would be pald by Congrees. As the bill passed it provided only for the return of the sum paid by the Japanese Government, the clause for the payment of interest having been struck out. It is said that on this account the Japanese Government declined to pay the full contingent fee as agreed upon. The attorneys in the case have sent a representative to Japan to ask that the full fee shall be paid them for their services.

Two Lawyers in Trouble.

NEW HAVEN, Nov. 12.-Lawyers A. D. Penny and John. H. Tuttle were tried before the Superior Court for an alleged misappropriation of money. Tuttle's defense was that he was robbed while in New York of \$375, and was therefore unable to pay Dr. Gilbert the money he owed. When asked if he was not accompanied by a woman on his trip, Mr. Tuttle replied with much show of indignation that he was not; that one woman had spoiled his life, and he therefere did not want anything more to do with the fair sex. Miners Still Out.

PITTSBURG, Pa., Nov. 12.—The miners along the Low Grade Road are still out, the Hildrup mines, at Du Bois, being the only one working full. There is no prospect of the mines starting this winter, and it is thought that there will be a great deal of suffering among the miles families.

AYER'S CATHANTIC Pills act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other allments, for all of which they are a sufe, sure, prompt, and pleasant remedy. The extensive use of these Pills by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These Pills are compounded of vegetable substances only, and are absolutely free from calouel or any other injurious ingredient.

"Aven's Pills are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your Pills are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers.

BOOTS,

Like an Evil Spirit.

In olden times it was thought that evil spirits came in through cracks and keyholes. The generally approved way to keep them out was to plug up the keyholes and stop the cracks with cotton. Notwithstanding these preventive measures, the evil things had their

own way and often came in as they pleased.
So comes malaria now-a-days. We try to keep it out of the keyhole and it comes in by the crack. We stop up the crack, and lo! it comes from a leak in the plumbing, or an opening, from some neglected drain, or from some insuspected source and unguarded

We cannot always keep malarid out, but we can give it battle and drive its effects from our systems. If likeways from Bitters is taken in time, malaria has not a glort of a chance. This is the great family medicine. Your druggist sells it, and you of all to keep a bottle in the house.
